as listed below.

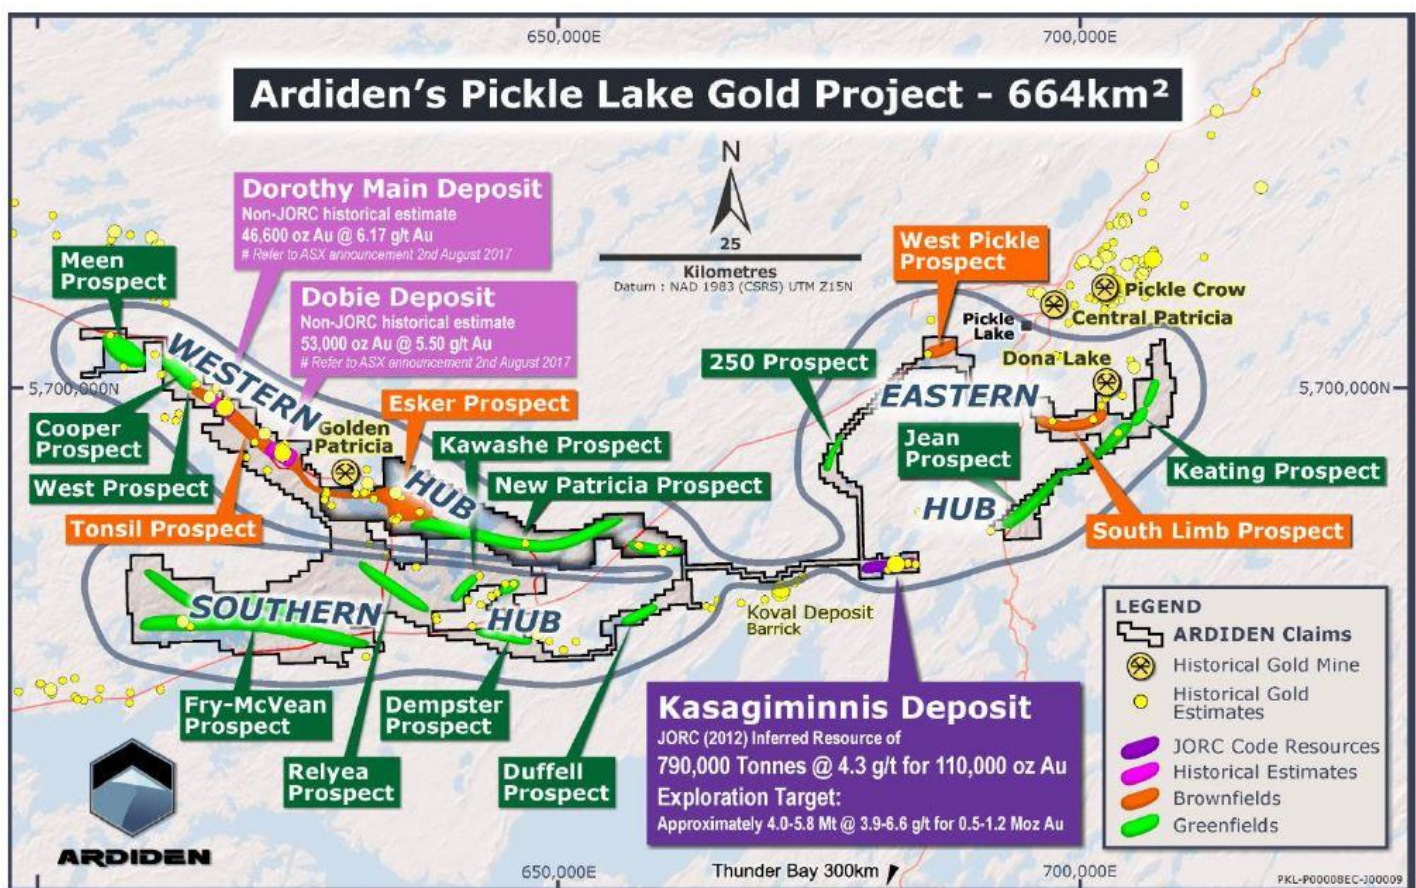

Figure 1 – Ardden's Pickle Lake Gold Project and Exploration Work 'Hubs'

Within the interview, the Directors refer to JORC Resources, Exploration Targets and non-JORC historical estimates, therefore please refer to the appropriate cautionary statements in relation to these subject

*-The potential quantity and grades stated for the Exploration Target is conceptual in nature and there has been insufficient exploration to define Mineral Resources across the exploration target area. It is uncertain if further exploration of these targets will produce results that permit additional Mineral Resources to be estimated.

*- The historical resource estimates are not reported in accordance with the JORC Code and a competent person has not done sufficient work to classify the historical estimates as mineral resources in accordance with the JORC Code. It is uncertain that following evaluation and further exploration work that the historical estimates will be able to be reported as mineral resources in accordance with the JORC Code.

This information is authorised for ASX release by the Board of Directors.
